

ORANGE AUTOMATION SYSTEMS

ABOUT US:

ORANGE AUTOMATION SYSTEMS was founded in 2011 and has been involved in Marketing of Industrial Automation components and providing solutions. We cater to Power, Automotive, Process, Factory Engineering, FMCG, Infrastructure and other sectors as well.

Our company has epitomised superior quality and suited products for use in Industrial Automation Environment. We provide ourselves on our array of products and are constantly upgrading to cutting edge cutting technology. Despite the industries unremitting miniaturisation that has rendered the assemble complex, the constant evolution of our product range guarantees customers demands remain uncompromised
